# Welcome

Welcome to Building Your 1dollarbuzz business.

## What is 1dollarbuzz?

1dollarbuzz.com is neither a Ponzi nor a Pyramid Scheme. The ladder system does project a pyramid design by way of down-line generation, but it is simply a basic bumping ladder system. A Pyramid scheme by design goes on forever but our ladder system does not. It has a max point where you earn no more commission, thus, when maximum earning(s) is reached, you are bumped out of the ladder and out of the system. You then have to re-join and start from the bottom and by this time you would have generated a massive down-line and you simply invite the same 7 or 4 people you started with and make easy money all over again.

The system is a ladder based commission module that bumps you up a position until you get to 0, at this time thousands of ladders would have been created where your name appears and you are earning a percentage and you also bump up a position until you get to zero, then multiply all your earning by the number of generated ladders and the result is thousands of \$\$\$.

1\$Buzz is an investment for today & the future to attain financial freedom in trying times. You manage your transactions online with ease or via mobile web, and all countries can participate.

## Membership Options we offer

- **1\$buzz (7x7 Ladder)**

This is also known as the 7by7 ladder which means you invite ONLY 7 people (though you can invite more if you wish). The membership amount available under this option is:

\$1 Option (you earn \$96,079.90 max when you cycle out of the ladder)

\$5 Option (you earn \$480,399.50 max when you cycle out of the ladder)

\$10 Option (you earn \$960,799.00 max when you cycle out of the ladder).

- **Fast Track (4x4 Ladder)**

This is also known as the 4by4 ladder. The membership amount available under this option is:

\$30 Option (you earn \$1,530 max when you cycle out of the ladder)

\$50 Option (you earn \$480,399.50 max when you cycle out of the ladder)

\$100 Option (you earn \$960,799.00 max when you cycle out of the ladder).

# What products are you selling to promote your program?

---

## What are you selling or promoting to members?

1dollarbuzz is simply a referral based membership website. We do not sell any products nor do we give you products to sell. You simply invite members to join and pay a membership fee and you get paid for each paid referral and receive prizes like Blackberry Bold 5, Iphones, I pads, flat screen TVs, Laptops/Mac book Pro and a brand new car for the first 20 people to cycle out of the 7by7 ladder membership.

We also guarantee to you a 10% - 20% commission based on earnings on every new member you invite and you can use your discounts to shop at our partner store at [www.outletcombo.com](http://www.outletcombo.com)

# Games Online and Mobile Web (win \$\$\$)

---

## The Next Level Of 1dollarbuzz

We are happy to announce our online and mobile web games currently in development stage. We strive to always take 1dollarbuzz to the next level and also to eventually be a household name.

The first 3 games we are developing are:

1. Ayo (Yoruba game, also known as Awari, Oware, Adi, Awale, Woaley, Wari, Ncho, Ouri, Adji, Ogedesi)
2. Chess
3. Checkers

The games will be available online or on mobile web for free. You can also play/compete against 1dollarbuzz paid members to win money

Watch out soon for updates at [www.1dollarbuzz.com](http://www.1dollarbuzz.com)

A red arrow points to the "0.00N" part of the Current Balance with the text: "Black & White dollar sign means account balance is less than \$5".

Below the balance information, a message states: "You have not payed for you membership yet. Please choose the payment method below." Two payment options are shown:

- LOCAL**: Represented by a bank icon and a green download arrow. A red arrow points to it with the text: "Click here to activate your Bank Deposit Teller Number".
- JunglePay PAY BY MOBILE**: Represented by a monkey icon. A red arrow points to it with the text: "Click here to pay using sms (mobile phones)".

All Nigerians must see this view if you plan on using bank payment option or sms payment. Notice the Naira sign (=N=) can be seen in this picture.

If you are in the USA/Other view (Diagram 4b) and you click sms payment and you have a Nigerian phone number you will get error messages and may lose money/phone credits in the process.

If you are Nigerian and plan to pay and receive money in Nigeria and also if you plan to pay by sms (also make sure your country is Nigeria in registration settings), you MUST choose the local currency settings. To select local currency or update address, country, name and bank data, click the settings button on the top-right of your account page.

## Q & A

### GENERAL AND ACCOUNT ACTIVATIONS (Q & A)

#### **Is this a PONZI or Pyramid scheme?**

This is neither a Ponzi nor a Pyramid Scheme. The ladder system does project a pyramid design by way of down-line generation, but it is simply a basic bumping ladder system. A Pyramid scheme by design goes on forever but our ladder system does not. It has a max point where you earn no more commission, thus, when max is reached, you are out of the system and total projected earnings reached. You then have to re-join and start from the bottom.

At 1dollarbuzz.com we are not promising you a daily or monthly return on your membership fee with us. What we guarantee to you, is a 10% - 20% commission on every new member you invite to patronize our discount program for our site; [www.outletcombo.com](http://www.outletcombo.com). Your commissions accrue in a 7X7 forced matrix fashion as explained in the chart located in the HOW IT WORKS page, and REMEMBER you might NOT earn any commissions, if u do not invite people to join our discount membership program, and hence, just enjoy ur discounts when buying items or goods from our website, either for yourself or for profit through resale.

#### **How can we trust 1dollarbuzz will not crash or run-down like other mlm's in the past?**

This is a unique ladder system. The reason why other systems failed in the past and always is because they created a system where users earn money forever. We have a different approach called "No One Should Make Money Forever!!" You get bumped up a step until you reach position 0 on each generated ladder each time your referrers populate their down-line.

When you earn your max total (from all generated ladders), you are completely removed from the ladder system. If you want to earn more money with 1dollarbuzz, you will then have to re-join and start from the bottom thereby feeding new members who recently joined etc. Perfect system, don't you think?

#### **How do I make money with 1DollarBuzz?**

Once you join 1DollarBuzz, you will be given a "Referrer link", Member ID and a "Username". Any of the 3 can be used to refer other people to 1DollarBuzz under your membership option by having your invitee enter these data in the "Inviter box" on the online registration form.

**I found your website while browsing the internet. I want to join but I have no referrer?**

You do not need a referrer to join. The system automatically adds you under any member who is yet to fill his quota of 7 or 4 invitees depending on the membership option you join.

**If I refer more than 7 members, will I benefit anything from my spillover?**

If you refer more than your quota, you will still earn money from them but are considered spill-over and will be added under you and also under anyone in your down-line who needs to fill his own quota too, he also will earn from your effort.

**I have paid but my account is yet to be activated?**

As of 15th February 2012, all members who pay via local bank deposits are responsible for activating themselves as paid. Please allow 1-6 hours after bank close to give us time to upload your receipts/teller numbers to our servers, then log into your account and click on the 2 hand and currency note icon, then follow the instructions on the next page on how to activate your teller numbers. This can be done via PC or Mobile phone with internet access.

For those who do not fall in this category and paid using other forms of payment and were not activated automatically, please send us an email at [admin@1dollarbuzz.com](mailto:admin@1dollarbuzz.com) so we can resolve any problems immediately.

**I don't see the bank icon/picture to click for teller number activation?**

If you do not see the Bank Icon for teller number activation at bottom of page when you log in, then it means you are saved under the dollar (\$) settings only. You need to be in the Naira settings to be able to see the bank icon. If you do not see both dollar (\$) and Naira (=N=) values when you log into your account, then it means you are in the USA settings. To change it to Naira settings, click the Account Settings link, select the Nigerian Naira radio button, scroll to the bottom of page to update your bank details, then click then Update button.

NOTE: If your teller number starts with a zero (0) and if your number does not work when you try to activate your teller number please remove the zero (0) and try again. Sometimes we receive this numbers from the bank without a zero (0). Example, you might have a teller number 05673298, however, we may receive the info from the bank as 5673298.

**What if I paid for 5 or 10 people with 1 teller number?**

You can still activate yourself and multiple users as paid if you paid for multiple people with 1 teller #. First, when making the deposit, you should write membership option as the deposit name on the deposit slip; this will let us know what server to upload the teller number to. Next, we would upload the teller number with alphabets A, B, C, D and so on at the end of the number to account for each member to be activated. For example, a member deposits N1000 and at the bank and he writes "1 memo" as the depositor name and they get a teller number 1234. When we receive this data from the bank, we automatically know that the amount of N1000 is payment for 5 people on \$1 membership option. We then upload teller numbers 1234A, 1234B, 1234C, 1234D and 1234E to the server. Please allow 1 to 6 hours after bank close before attempting to activate teller numbers. For other multiple payments use the format below:

For \$5 membership enter deposit name as "5 memo"

For \$10 membership enter deposit name as "10 memo"

For \$30 membership enter deposit name as "30 memo"

For \$50 membership enter deposit name as "50 memo"

For \$100 membership enter deposit name as "100 memo"

**What if I paid for myself for 2 or 3 memberships with 1 teller number?**

You can still activate yourself or multiple users/accounts as paid if you paid for multiple memberships/people with 1 teller #. First, when making the deposit, you should write membership option(s) as the deposit name on the deposit slip. For example, a member deposits N10,800 at the bank and he writes "10,50 memo" as the depositor name and they get a teller number 1234. When we receive this data from the bank, we automatically know that the amount of N10,800 is payment for \$10 and \$50 membership option. We then upload teller numbers 1234A and 1234B to the server (1234A will be placed on \$10 server and 1234B on \$50 server). Please allow 1 to 6 hours after bank close before attempting to activate teller numbers. For other multiple payments use the format below:

For \$1 membership enter deposit name as "1 memo"

For \$5 membership enter deposit name as "5 memo"

For \$30 membership enter deposit name as "30 memo"

For \$100 membership enter deposit name as "100 memo"

**I can't seem to activate my teller number!**

If a teller number starts with 0 (zero) and when you try activating it on 1dollarbuzz when you log in and it does not work, try removing the 0 (zero) and try again. Sometimes we receive a number without a 0 from the bank while you might have a 0 (zero) at the beginning of your receipt. For Example, if your teller number is 0737126, the bank sends it to us as 737126. So when you try activating 0737126 and it does not work, try 737126 etc

Please allow up to 2 - 6 hours after bank close before trying to activate your teller numbers.

**ACCOUNTS, MEMBERSHIPS, PAYMENTS, WITHDRAWALS & FEES (Q & A)**

**How much does it cost to join 1DollarBuzz?**

The cost for membership at 1DollarBuzz depends on the membership option you want to join. Membership is in 2 categories.

We have the Buzz ladder (\$1, \$5 and \$10 membership option)

We have the Fast Track Ladder (\$30, \$50 and \$100 membership option).

**Can I have membership in all the \$1, \$5, \$10, \$30, \$50 and \$100 options simultaneously?**

Yes you can, you can also use 1 email address for all options.

**I forgot my password, how can I access my account?**

Click on the "forgot password" option and follow the instructions to retrieve your password.

**Please can you help me change the bank details from GTB Bank to UBA Bank?**

Unfortunately we did not create a way for admin to update customer personal info or bank details by admin for security reasons unless we go into the raw database tables in the back-end which we try not to do as not to crash the database. All users are capable of updating any personal data anytime by logging into their account and clicking on "Account Settings" to change any data and click the Update button when done. This can also be done on your mobile phones.

### **How do I pay the Membership fee?**

You can pay via Liberty Reserve, Alert Pay, Local Bank deposit, Email and SMS.

### **The SMS payment is not working?**

For Nigerian members, you should make sure that your account is in the Naira settings. You will know that you are in the Naira settings if you see a local conversion rate with a Naira sign beside it for "Current Balance", "Earned", "Withdrawn", "Pending" and "Fees" line. If you only see dollar values then your sms code will not work because you will be seeing the short code meant for USA numbers, you need to go to "Account Settings" and select the radio button for "Nigerian Naira" then scroll down to enter your bank details and then press the "Update" button. The screen will be refreshed and you will see a green text that says "Account details successfully updated". Now you can successfully attempt the SMS payment with no problems.

Also, when you click the jungle pay button for SMS payment, you need to complete the steps within 2-3 minutes. For bigger payments like \$5 and \$10 options, you should try to finish your SMS transaction as soon as possible because the session cookie might expire. All larger SMS transactions should be completed within 5 mins.

### **When do I have to pay the Membership fee?**

Your one-time membership fee is to be paid during your registration process. You can register and activate your profile for free but if payment is not received within 72hrs your data may be deleted from the system.

### **Are there any monthly or other fees?**

No, there are no other fees. However, we will charge your account for fees incurred from our banks for electronic transfers to your account, shipping fees for your prizes or any fees incurred to service a request. You will see a detailed description of fees in your 1dollarbuzz account.

### **How much will I be paid for every person I refer?**

You will receive between 10% - 20% commission for every direct and indirect referral.

**How does payment for referrals work?**

You receive referral commissions 7 levels (Buzz Ladder) or 4 levels (Fast Track) deep, which means that by referring only a few people and then through your direct and indirect referrals again acquiring referrals, you can end up with a thousand or more in your down-line.

**How soon after my referral joins will I receive the commission?**

No Waiting - Your commission will be instantly deposited in your site account.

**When do I get paid?**

You may request payment as soon as your account balance is at least \$5. You can request payment into your Alert Pay, Liberty Reserve account, PayPal or local bank account.

**Do I have to wait a long time for my payment?**

No, payment is instant. But we do ask you for a 24hr window depending on your bank and bank to bank transfer issues (Business day).

**How can I earn so much when there is only such a low life-time membership fee?**

Your payment of \$1, \$5, or \$10 gets split between members of your up-line, who benefit from you as their referral and you benefit from your referrals in the same way. This works by people referring other people and as the membership fee is one-time only and because it is only \$1, \$5, or \$10, acquiring referrals is very easy. However, we created the Fast track Ladder for those who want to make money faster and with less referral.

**I chose local bank Nigeria option, Can I have referrals worldwide?**

Yes you can. Anyone from any country can join using your local bank referral link or any link you may have (3 different links are provided at bottom of your profile when you log into your account. Any of the 3 can be used). Your invitee can change to their mode of currency during or after registration by clicking the appropriate radio button in the currency section on the top part of the registration form.

**I want to join this program, but I don't know how to promote this site?**

There are many ways you can advertise your referral URL, Member ID or username (Note: username is case sensitive). There are free and paid auto-surf programs that will allow you to effectively advertise the program with your referral URL. Additionally, you could submit the link into the various search engines available, post in a variety of forums, purchase ad space, and even post your referral URL in the signature of every email or post you make.

**Will I lose money in this program?**

That would be practically impossible, however, if in the event of a massive internet crash (which isn't likely to happen), your net loss would be the \$1, \$5 or \$10 investment you paid for the one-time membership fee. That's all.

**Is this legal?**

Yes, 1dollarbuzz.com is 100% legal. In return for your investment, you are given 5% - 40% discount to shop on our online store at [www.outletcombo.com](http://www.outletcombo.com). Any program that provides a product of any kind is legal.

**PRIZES (Q & A)**

**Are the prizes new or used?**

The Ipads, Laptops and Mac Book items are brand new. The phones are used within 2months, this is so because phones are expensive at retail price and unlocked with no service plan but we guarantee the phones to be in excellent condition. Brand new phones can be purchased at your request but will require additional referrals. Email us at [prizes@1dollarbuzz.com](mailto:prizes@1dollarbuzz.com) for individual requests.

**Can I refer myself and register as my down-line and pay for each to win prizes?**

Prizes are based on total amount earned.

**What courier services do you use to ship worldwide?**

We prefer FedEx as our official shipper. However, due to the expensive service and since you will be charged the shipping cost, we will ship by DHL, UPS or ship to a relative in the UK or USA at your request by sending an email to [prizes@1dollarbuzz.com](mailto:prizes@1dollarbuzz.com).
